## People in Hong Kong are looking for greater personalisation and on data when it comes to sustainable investments

The top three factors that would encourage people in Hong Kong to increase their sustainable investments

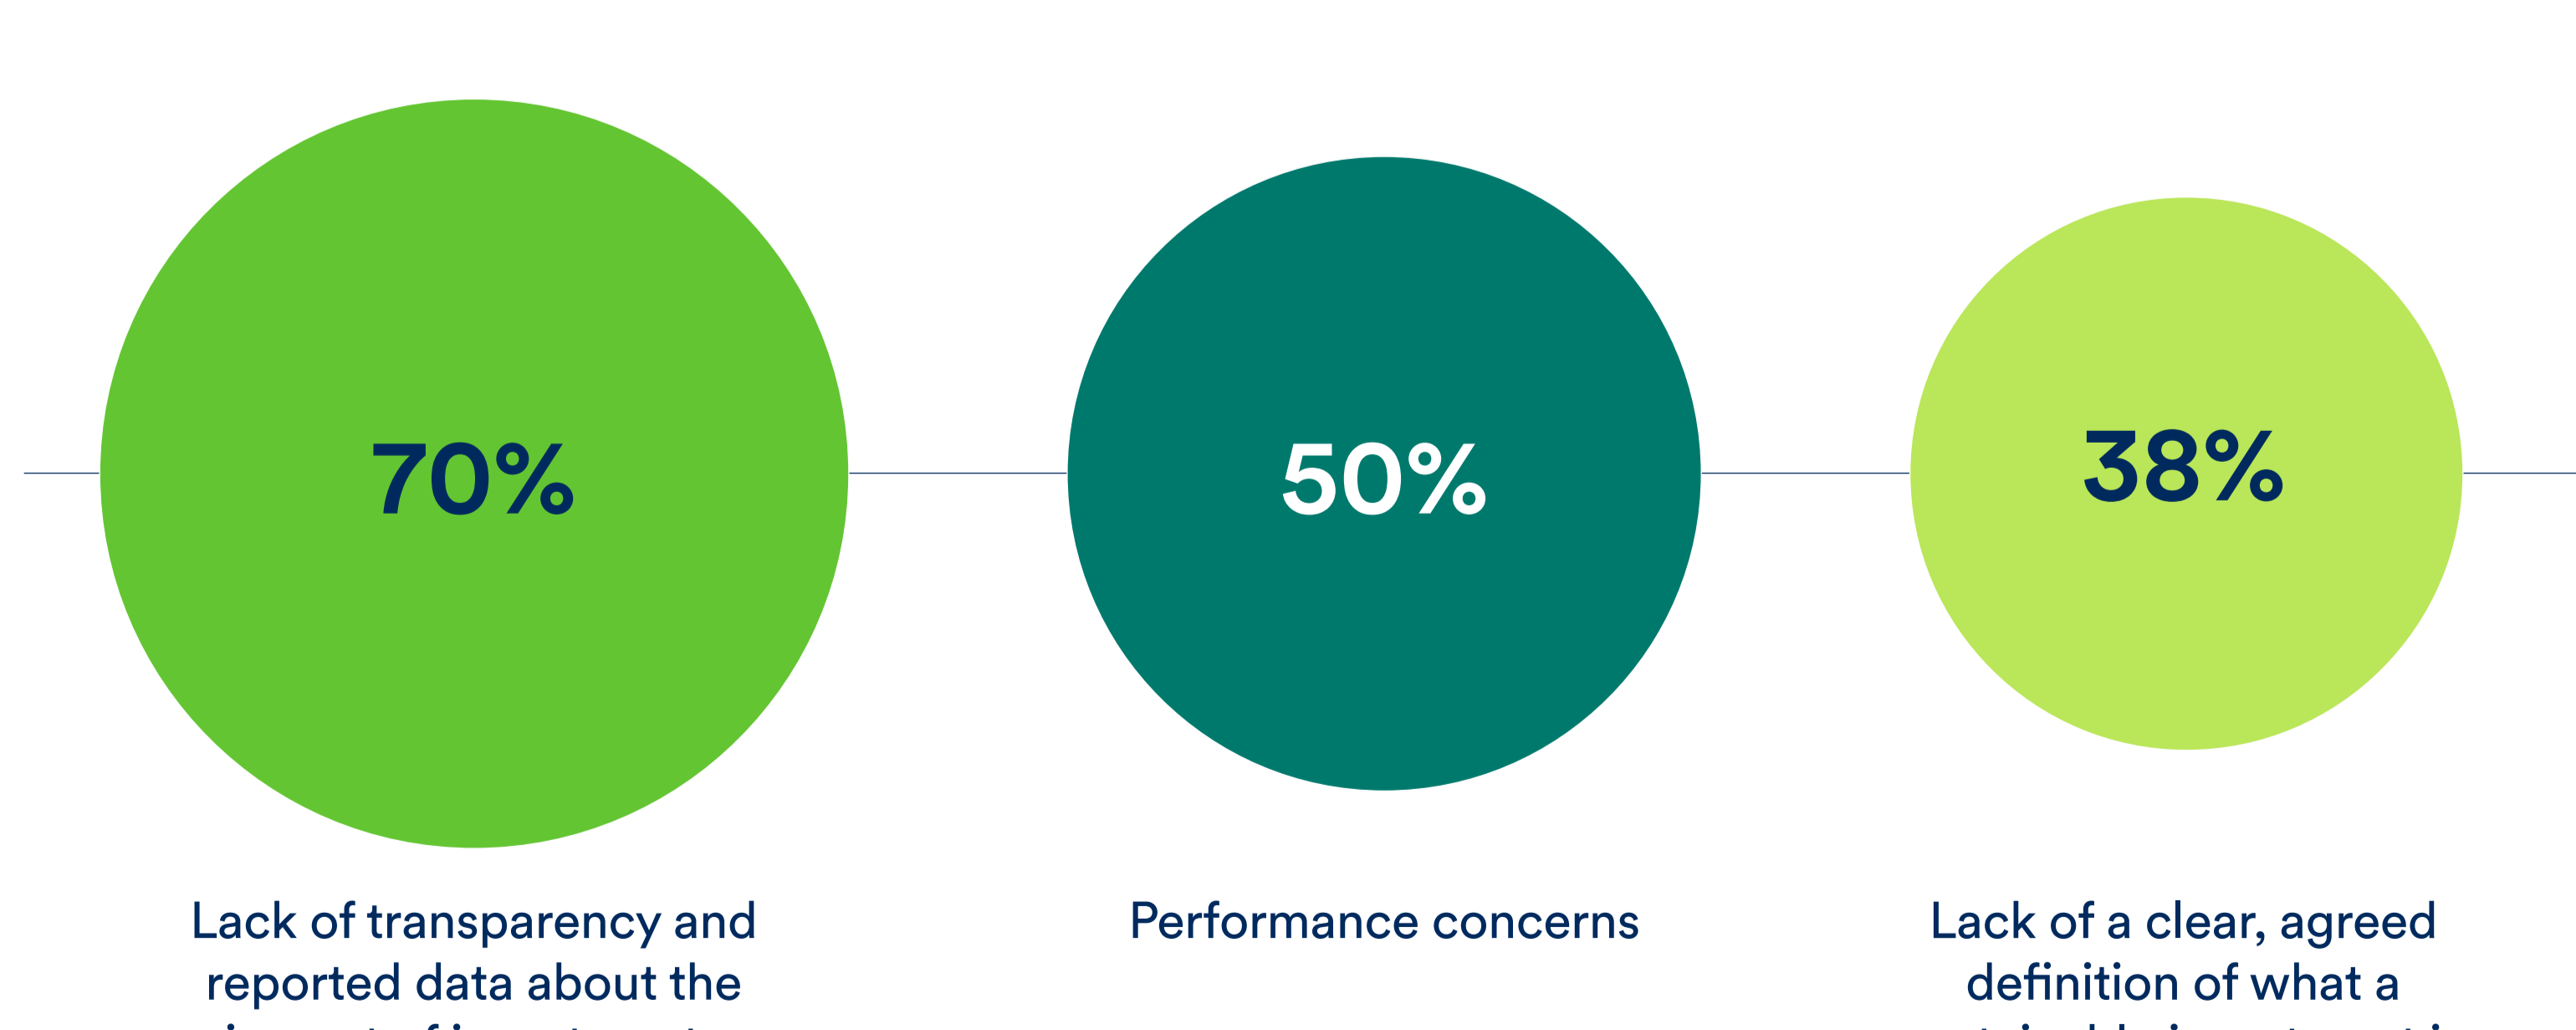

## While people in Hong Kong want their investments to help support quality education, specific social goals are top priorities

The five foremost areas that people in Hong Kong would like their investments to have an impact on

## An increase in transparency when it comes to the impact of sustainable investments would encourage more people in Hong Kong to invest

The top three factors that people in Hong Kong consider to be a barrier to increasing their sustainable investments

Schroders commissioned alan. agency and iResearch to conduct an independent online survey of 23,950 people (21,131 non-retired and 2,819 retired) in 33 locations around the world between 18th February and 7th April 2022. This research defines "people" as those who will invest at least €10,000 (or the equivalent) in the next 12 months and who have made changes to their investments within the last 10 years. These individuals represent the views of people in each location included in the survey.
