

17 January 2023

Dear Shareholder,

Schroder International Selection Fund (the “Company”) – BRIC (Brazil, Russia, India, China) (the “Fund”)

We are writing to inform you that the constituents and name of the Fund’s target benchmark have changed and that on 18 April 2023 (the “Effective Date”) the Fund’s name, investment objective and investment policy will change.

Background and rationale

Following the Russian invasion of Ukraine and subsequent sanctions, Russia was removed from the Fund’s target benchmark, MSCI BRIC (Net TR) 10/40 index. With effect from 14 July 2022 the target benchmark was renamed MSCI BIC (Net TR) 10/40 index. This change has been reflected in the Fund’s prospectus. In this context there was an additional review of the Fund and it was decided to remove Russia from the investment objective and policy, and to change the name accordingly.

In the context of the unprecedented geo-political situation caused by Russia’s invasion of the Ukraine and the resultant impact of sanctions and the actions of governments and market counterparties on certain Russian issuers and assets, the Fund’s residual holdings in Russian assets (the “Russian Assets”) are currently valued at zero. These Russian Assets represented approximately 0.35% of the Fund’s portfolio as of 3 March 2022 when the value was reduced to zero. In the event that value returns to these assets they will be returned to the net asset value of the Fund and will be sold by the Investment Manager taking into account the best interests of the shareholders in line with the Fund’s amended investment strategy applicable as from the Effective Date.

Investment Objective and Policy Change

From the Effective Date the Fund’s Investment Objective and policy will change as shown in Appendix 1.

Name Change

From the Effective Date the Fund’s name will change from:

Schroder International Selection Fund BRIC (Brazil, Russia, India, China)

To:

Schroder International Selection Fund BIC (Brazil, India, China)

The extent of the change to the risk/reward profile of the Fund as a result of these changes is non-significant.

All other key features of the Fund, including the synthetic risk and return indicator (the SRRI) and fees, will remain the same.
