SSE Plc

Meeting Date: 07/22/2021

Country: United Kingdom

Meeting ID: 1487048

Meeting Type: Annual

Ticker: SSE

Proposal Number	Proposal Text	Proponent	Mgmt Rec	Vote Instruction
19	Approve Net Zero Transition Report	Mgmt	For	For

Voter Rationale: Shareholders are asked to approve the Company's proposal to adopt a plan to become a net zero business in its scope 1, 2 and 3 greenhouse gas emission by 2050 or sooner, consistent with limiting the average global temperature increase to 1.5°C with low or no overshoot, in line with the goals of the Paris Agreement. We welcome the company's plan to achieve net zero by 2050, and development of interim science-based targets. We also welcome the opportunity to express our views on the company's approach on an annual basis. As such, we support this resolution. We encourage the company to continue to develop its targets covering the short-, medium- and long-term so that it is on a pathway aligned with a 1.5°C future.
