Dear Shareholder,

Schroder International Selection Fund (the “Company”) – Emerging Markets Debt Absolute Return (the “Fund”)

We are writing to inform you that on 21 September 2023 (the “Effective Date”) the name, investment objective and policy of the Fund will change and a new comparator benchmark will be adopted.

In addition, the Fund’s commitment to invest a minimum proportion of 5% of its assets in sustainable investments will be removed.

Background and rationale

The Fund currently has an “Absolute Return” objective which means that it seeks to achieve a positive return in all market conditions over rolling 12 month periods. However, on review of the implementation of the policy we believe that the Fund’s strategy and return profile is better suited to “Total Return” which means a combination of capital growth and income. Funds classified as Absolute Return typically make use of short positions, use leverage and employ market neutral strategies. The Fund does not employ these techniques or instruments. The Fund’s core objective of investing in Emerging Markets Debt will not change.

The existing “Absolute Return” objective acted as a target benchmark for the Fund and the shift away from this means the Fund will no longer have a target benchmark. In order to allow a performance comparison a new comparator benchmark will be adopted from the Effective Date: the 50% JPM GBI-EM Diversified Index and 50% JPM EMBI Diversified Index.

The Fund is classified as Article 8 under the Sustainable Finance Disclosure Regulation and the overall portfolio is managed with a view to meeting various sustainability criteria, detailed in the investment policy and in the pre-contractual disclosures in the Company’s prospectus. One of the criteria is a commitment to invest at least 5% of the Fund’s assets in sustainable investments. Following further consideration, the investment manager believes that this requirement constrains the investment strategy of the Fund and therefore from the Effective Date this will reduce to zero. This means that while the Fund will continue to be managed according to its binding sustainability criteria, namely the requirement to maintain a higher overall sustainability score than a benchmark, there will no longer be a requirement for a minimum of 5% of the individual holdings to be sustainable investments.

Full details of the changes being made can be viewed in the Appendix to this letter.

The Fund’s investment policy has also been updated to reflect that the Fund may invest up to 15% of its assets in mainland China through regulated markets (including the CIBM via Bond Connect or CIBM direct), and that where it will invest two thirds of its assets in fixed and floating rate securities, currencies and Money Market Investments in emerging markets, this represents the net assets of the Fund excluding cash in developed markets. .

The extent of the change to the risk/reward profile of the Fund as a result of these changes is non-significant.

All other key features of the Fund, including the relevant risk indicator and fees, will remain the same.
